**GitHub:** https://github.com/srirams00

**Portfolio:** https://rainbow-crumble-6bfcc2.netlify.app/

**Location:** Kattur, Tiruchirappalli.

## Career Summary:

Enthusiastic and focused Front-End Developer with practical experience in creating responsive, user-friendly web interfaces using HTML, CSS and JavaScript. Proven ability to translate design concepts into clean, functional code. Skilled in building visually appealing layouts and optimizing web performance. Seeking an entry-level opportunity to contribute technical skills while continuously learning modern web technologies.

## Education Qualification:

- **Bachelor of Computer Applications (BCA)**
  St. Joseph's College (Autonomous), Tiruchirappalli
  2024 – 2027 | CGPA: 6.5 / 10
- **Higher Secondary Certificate (HSC)**
  ADW Boys Government Higher Secondary School, Tiruchirappalli
  Tamil Nadu State Board | 2023 – 2024 | Percentage: 66%
- **Secondary School Leaving Certificate (SSLC)**
  ADW Boys Government Higher Secondary School, Tiruchirappalli
  Tamil Nadu State Board | 2021 – 2022 | Percentage: 60%

## Skills:

### Technical Skills:

- Web development (HTML, CSS, JavaScript)
- Programming (Python, Java, C, C++)
- Database (MySQL)

### Soft Skills:

- Analytical Thinking
- Problem Solving
- Time management
- Adaptability

## Certifications:

- Successfully completed the **"Application Developer (Web & Mobile)"** certification program conducted by the National Skill Development Corporation (NSDC) at Jeyram Educational Trust.

## Projects Involved:

- **Self Project:**

  - **Website for Department Information Technology** (Approved by Mentor):

    **Description:** Designed and developed a responsive full-stack web application using HTML, CSS, JavaScript, Python (Flask), and SQLite. Built RESTful routes in Flask to handle user requests and integrated a SQLite database for data storage and retrieval. Implemented user authentication, form validation, and dynamic UI updates. Deployed the application on PythonAnywhere for live production access**.**

    **Live Demo:** https://silvest.pythonanywhere.com/

  - **QR Code Generator Web Application**

    **Description:** Developed a responsive QR Code Generator web application using React.js. The application allows users to enter a valid URL and instantly generate a QR code. Implemented real-time input validation to ensure correct URL format before generating the QR code. Integrated a QR code generation library to dynamically create and display the QR code on the user interface. The generated QR code can be scanned using a mobile device to quickly access the provided link. Focused on clean UI design, fast performance, and user-friendly interaction.

    **Live Demo:** https://subtle-kataifi-748794.netlify.app/

- **Min project:**

  - **Dice Game Web Application**

    **Description:** Developed an interactive Dice Game web application using HTML, CSS, and JavaScript. Implemented random number generation logic to simulate dice rolls and dynamically updated the UI using DOM manipulation. Designed a responsive and user-friendly interface with styled components and game result display. Applied conditional statements to determine the winner based on dice values. Focused on clean code structure and smooth user interaction.
